# Google Shopping is the perfect tool for online shopping that your competitors already use

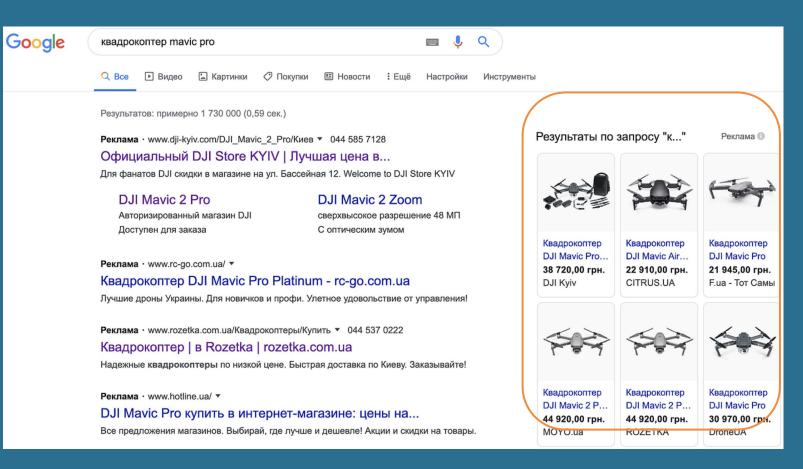

AGENCY 451 specialists have experience starting Google Shopping and increasing sales for any topic

Merchandise ads show high sales performance because they are informative (consist of product image and price) and appear when a product is searched by a user. Or, when a potential buyer visits the site, they are

already displayed on the Google Display Network or Facebook via remarketing Benefits of Google Shopping:

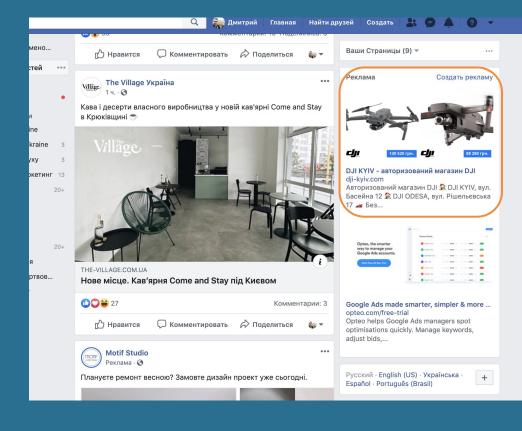

- Visible in search;
- Always up-to-date (price and product are updated automatically);
- Automation hundreds of ads are downloaded from the feed (product file);
- High ROAS (ROI)

#### An example of a Google product listing ads

#### Example of a Facebook product ad (centerline or right)

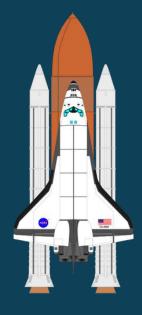

Examples of Product Listing Ads on the Google Display Network (Dynamic Remarketing). That is, ads show products that a user has viewed on your site before
